Falcon Bass Boats Unveils F20 Predator at Bassmaster Classic in Birmingham

Newberry, S.C. – March 2, 2020 – When it comes to performance, Falcon Bass Boats has always soared. With the launch of the new F20 Predator at the 2020 Academy Sports + Outdoors Bassmaster Classic presented by Huk in Birmingham, Ala. The F20 Predator is a new 20-foot, 2-inch bass boat, that improves on already legendary performance and helps Falcon Bass Boats take its place at the top of the perch.

Bass fishing fans can come see the newest Falcon take flight in booth 3005 at the 2020 Academy Sports + Outdoors Bassmaster Classic presented by Huk.

The new F20 Predator is based upon the proven hull that has been the foundation of Falcon’s 20 foot bass boat lineup, but with a few tweaks to make it better. Using that platform, the team at Falcon Bass Boats made subtle changes in the hull without sacrificing the ride that has made Falcon famous. The result is one of the highest performing 20-foot bass boats in the market today.

Stephen Waller, Co-founder of Falcon Bass Boats said that Falcon Bass Boats is pleased with the results of this new product. “I feel like the F20 Predator is our best design to date,” said Waller. “We took an already great performing hull and made it even better, and added some new aesthetic features to really set the boat apart; we can’t wait to hear the feedback.”

Already featuring one of the widest beams available today, at 99 inches, Falcon tweaked the layout of the deck to provide more fishing room to what is already one of the biggest decks in the business. On top of that, they added features like the new sliding tackle tray to enhance the way tackle is stored, and of course the rod storage still features the front hinged design to allow for easy access whether inside or outside the boat.

The cockpit is built around a newly designed console that features an engineered shroud to create a sleek appearance for electronics and gauges. The driver has new switches and control panels at their reach for easy access and everything is enhanced by new seating and appearance features that finish off the look of a truly top-tiered, luxury, performance bass boat.

The thought to design and construction doesn’t stop with the boat itself, Falcon completed the package by resting The F20 Predator on a Falcon trailer complete with custom 18-inch wheels and tires and new chrome fenders for a perfect matching appearance. For more information about Falcon Bass Boats, visit them on the web at <http://www.falconbassboats.com> on Facebook and Instagram or contact them at 803-276-0033 for questions or dealer inquiries.

About Falcon Boats – Falcon boats; established in 2015, currently produces the F195, F205 and F215, the F20 Hybrid Series, the F20 and F21 Tournament Editions and the F20 Predator. The boats are designed with the strongest stringer grids and some of the widest beams in their class to provide increased stability and an improved ride on rough waters.

A product of a lifetime of boat building, Falcon Boats was created with the goal to provide a premium quality, high performing, tournament worthy boat at an affordable price. The company’s founders have over 90 years of combined boat manufacturing experience. Their vast boat building experience in both the freshwater and saltwater industries are combined to build an exceptional boat for fishability and serviceability. This experience, along with a passion for fishing, provides a wealth of knowledge on what goes into making the best fishing boat.
